EDUCATIONAL SCHOLARSHIPS FOR BIRTH MOTHERS

*"The scholarship will help me achieve my future goals. I want to be a role model my child can look up to. She is my motivation and inspiration."
— Arienne*

The Lifetime Adoption Foundation is dedicated to creating healthy and fulfilling futures, for a child and his or her birth mother. We provide support in a variety of ways, including opportunity to consider a plan for life-after-adoption that she will be proud and encouraged to pursue.

When a mother places a child for adoption, she does so out of a great love and sincere desire to give her child the best chance. Many birth mothers also express a desire to improve their own circumstances, which often involves furthering educational goals. **The Lifetime Adoption Foundation has educational scholarships** for mothers who have placed a child for adoption. Our heart is that she would take steps toward a thriving future, and have the freedom to dream, beyond her child's adoption.

- Available to birth mothers who have placed a child for adoption after 1990
- Verification of the adoption will be required before approval
- Adoption must be legally finalized before eligible
- Qualifying schools include community college, university, or a trade school
